

Table entry for  $p$  is the critical value  $\chi^*$  with probability  $p$  lying to its right.

**TABLE D** Chi-square distribution critical values

df	$p$											
	.25	.20	.15	.10	.05	.025	.02	.01	.005	.0025	.001	.0005
1	1.32	1.64	2.07	2.71	3.84	5.02	5.41	6.63	7.88	9.14	10.83	12.12
